CSE 2321 Homework Directions

Please carefully follow the directions below when completing your homework. The penalty for not following each direction is noted after each item.

1. Use standard-size (8.5 by 11 inch), white paper. This is the size printer paper. Do not use graph paper. (-5)

2. In the upper-right corner of the first page, include the following information:

   (a) Your name (-5)
   (b) The homework number. (e.g. Homework 1) (-3)
   (c) The course name: CSE 2321 (-2)

3. Staple your pages together in the upper left-hand corner. Staplers are available at the front desk of most libraries and in the main computer science office (DL 395). (-5)

4. Your work can be handwritten but should be done in a neat, professional manner. This means: (-5 each)

   (a) Don't tear the paper out of a notebook so that it has ragged edges.
   (b) Your work should be legible.
   (c) Don't cram your answers together; leave some room for the graders to write comments, if needed.
   (d) Don't use scrap paper, printer cover sheets etc.
   (e) Write your solutions in order.
   (f) If you handwrite your homework, use pencil, or a black or blue pen.

5. Do not print out and turn in the sheet with the questions on it. Do not write your answers on the sheet with the questions on it. (-5)
